Summer Solstice Concert & Celebration
June 11 - 21 2016
10 Nights at 5-Star Hotel Radon Plaza
Experience 2016 summer with the Magnificent World Largest discovered Pyramid of Bosnia as we gather internationally to celebrate the Summer Solstice of the year! Bosnia Sun Pyramid discovered by Dr. Samir Osmanagich in October 2005 soon gained worldwide attention and continues to draw interest from all walks of life and professions. The Bosnia Sun Pyramid is measured at 772 ft or 235 metres in height whereas the Great Pyramid in Giza, Egypt measures at 450 ft or 137 metres in height.

Physicists, scientists, geologists, archaeologists, spiritual practicing and explorers began visiting the tunnels and pyramids each documenting and sharing their amazing experiences to the world ever since.

Yantara Jiro has lead sacred tours to the Bosnia Pyramids twice both for the Summer Solstice in 2012 and 2013 while the group aligned to the Solar Sun in celebration for world peace and honoring the Earth blessing all sentient beings through sacred ceremonies.

Many participants have said to experience a heightened state of awareness in a positive collective consciousness environment. This has lead to the opening of a sacred heart space to greater self-love, releasing of painful emotions and deep healing on many levels of a being during the tours.

He had the privilege and honor to co-host the celebration event with many evolutionary leaders at the Pyramid Apex with over 300 people. He was also filmed by TV News Channel of Bosnia while singing at the ceremony.

The transformations reported and articles shared are many and are easily available on the Internet. Yantara’s repeated visit to certain pyramids of the world such as Egypt, Bosnia, Mexico and China helped him to witness the vibrational impact pyramids have on people.

People’s mind, heart and body open up with ease and are in awe with the intuitive guidance and messages that flows into their life.

Repeated visits to what many people label these places as “Power Spots” or “Vortices” clearly emits a constant stream of attraction & magnetic resonance.

After a great release and clearing in 2015 leaving behind the old relationships, pains, angers and closures; 2016 shall bring to the world great opportunities for expansion in all aspects of life. Abundance shall flow immensely and showers of blessings will urge each individual to step up to their powers as hibernations are over.

THE SUMMER SOLSTICE 2016
Once a year, during the Summer Solstice, the Sun’s rays align perfectly with the Sun Pyramid in Bosnia and cast a perfect shadow upon the Moon Pyramid at its back covering it completely in size. It has been said and believed that on such a day, the powers of the Sun pyramid will be at it’s strongest peak capable of igniting our innate potentials within our DNAs and lightbodies.

It is for this purpose of emotional release, physical healing, spiritual upliftment, energy downloads and sound light activations that we shall gather in Bosnia to join in unity for this sacred ceremony and celebration!
“When all sacred monuments are unearthed, tuned and sung by the new light beings of this planet...The Earth Song shall once again emerge, through the heavens everyone shall hear the celestial musical spheres and its chorus across all lands...The Holographic Grid of this planet and all living consciousness shall stand tall and bright, liken to a brilliant column of infinite light blazing magnificently like a sun performing the greatest of the great ~

The Earth Song of the Golden Age.

This unimaginable song, all mighty filled with love and wisdom shall create rainbow bridges across time and space, celebrating galactic unity consciousness as a declaration that human beings, visitors of planet earth now welcome, and is ready to experience ‘The Unified Field’ through conscious living and awakening.”

Hermes Trismegistus through Yantara Jiro
Yantara is a visionary, inspirational leader, singer and explorer of Sound and Consciousness. Yantara inspires to spread the message of love and harmony through music and the power of sound; creating platforms for people to step into their powers by expressing their inner voice. He frequently organizes international sacred tours to vortexes such as Japan, Mt. Shasta, Egypt, U.K and many more.

He facilitates his seminars and workshops in over 8 countries around the world. Yantara teaches through his journey of spiritual awakening and inspires to invoke the inner power within us into our personal alignment with Source so as to co-create with the waves of global awakening.

Since 2008, Yantara has been leading sacred tours to vortexes of awakening, supporting individuals who are seeking and exploring their spiritual nature. His first tour in 2008 was Egypt, and following each year he was guided by his Source to lead tours to different sacred sites. Yantara has brought sacred tours in many locations of Japan such as Kyoto 1000 Kwan Yin Temple, Yakushima Island (Unesco Heritage), Light City Meiji-Shrine in Tokyo and Yonaguni Island (Underwater Pyramid). He also held ceremonies at Stonehenge, Glastonbury, Avalon Tor, Crystal Mountain, Scotland and Mt. Shasta. In 2012, and 2013, in Bosnia, the world largest Pyramid discovered, he co-hosted the Summer Solstice with Clare Russell and Dr. Sam Semir Osmanagich, leading hundreds of people at the apex of the Sun Pyramid celebrating the alignment of the Sun and Moon with the Stars.

Meditate with the Magnetic Stone Spheres aligning to our inner feminine and masculine energies. Opening ourselves to receive and to give, aligning to the Megasperulites Stone Spheres in the world such as Mexico, Costa Rica and New Zealand.

Hermes has said through Yantara Jiro that the Stone Spheres work are capable of working with each chakras of the body bringing us to connect with the Pyramids of the world. Its magnetic resonance field within the core of the sphere is natural due to the formation and when combined with the pyramidal structure will begin to emit distinct frequency. This though as yet to be proven but many who visited the stone spheres experience deep serenity and tingling sensations pulsing when they meditate near it.

Lunch in the nature. Back to hotel. (Breakfast, Lunch)

Water accumulated beneath the Moon Pyramid is connected to the underground lakes below the Dragon and Sun Pyramid. We will be taking sometime here to meditate at the Moon Pyramid.

Lunch at the restaurant in Visoko and visit the Vratnica Tumulus. It is about 5km from the pyramid site about 32m above road level. A team of Croatian physicists detected (2010) electromagnetic phenomenon - energy beam of 28kHz at the top of Tumulus. My experience at the apex of the Tumulus was simply amazing. Simply sit in silence and resonate your consciousness with the Tumulus and simply sit in beingness. Your vibrations will raise and naturally become in sync with the vortex frequency of this land. It is here that I received messages from the past ceremonies held here telling us that the future children is very important and we shall lead the new future towards sound and light.
